THE GREATEST MEDICAL DISCOVERY
of the AGE!

Mr. KENNEDY, of Roxbury, has discovered in one of our
common pasture weeds, a remedy that cures EVERY KIND of
HUMOR from the worst Keroplaid down to a common Pimple
He has tried it in over eleven hundred cases, and never failed
except in two cases, both thunder humor. He has now in his
possession over two hundred certificates of its value, all within
twenty miles of Boston.

biorches among the hair.

Four or six bottles are warranted to cure corrupt and running alcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles are warranted to cure the most case of ringworm.

Two or three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure skirheum.

Five to eight bottles will cure the worst case of scrofuls.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Nothing looks so unprobable to those who have in vain tried all the wonderful medicines of the day, as that a common weed growing on the pastures and along old stone-walls, should cure every humor in the system; yet it is a fixed fact. It you have a humor, it has to start. There are no ifs nor ands, huma nor ha's, about if, suiting some cases, but not yours. I peddled over a thousand bottles of it in the vicinity of Boston. I know the effects of it in every case. It has already done some of the greatest cures ever done in Massachuseits. I gave it to children a year old, to old people of sixty. I have seen peer, puny, wormylocking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to a sick headacho one bottle will always cure it. It gives great relief in catarrh and diaminess. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be nature, it will cause very singular feelings, but you must not be nature, it will cause very singular feelings, but you must not be nature, it will cause very singular feelings, but you must not halfeeling is gone, you will feel yourself like a new person. EXHIBITION OF THE N. Y. HORTICULTURAL

SOCIETY. The regular Jane exhibition given under the auspices of the New-York Horticultural Society took place on Tuesday in the reading-room of the Mercan-tile Library Association, Clinton Hall, Astor-place, which had been generously tendered to the Society The day was quite unfavorable for the purposes of

the exhibition, yet the moderate rain which continued almost uninterruptedly during the afternoon and even-ing did not prevent a very numerous attendance. In the evening indeed the room was densely crowded, so much so that it was difficult to move round the differ-

ing did not prevent a very numerous attendance. In the evening indeed the room was densely crowded, so much so that it was difficult to move round the different tables.

At 1 o'clock in the afternoon the exhibition was opened. The Committee of Arrangements had determined to admit on exhibition none but the choicest varieties of flowers and fruit; and though on former occasions we have seen a larger amount of space occupied with the flowers and fruits, yet we have never at any previous exhibition seen so many choice varieties. We have only space to devote to notices of some of the rarest specimens on exhibition.

Mr. Thomas Hogg of Yorkville displayed a large variety of plants and flowers. He being a member of the Committee of Arrangements, however, they did not enter the lists in competition. Among Mr. Hogg's plants were several specimens of Fuchsias. He exhibited also a very rare Coryantha maculata, being two flowers in bloom. This we understand is only the second instance in which this plant has bloomed in this country. Among the new varieties were specimens of Maranta bicolor, Trimaculata, Alboimeata and Sollya linearis. There were also choice specimens of Oncidum flexuosum, Mussandra frondosa, Polyhodrum aureum, Caladeum bicolor, Cummingea and Menziesia polifolis.

Mr. J. Cranston, the gardener of Edward A. Stevens at Castle Point, Hoboken, exhibited five beautiful seedling Anterhanums.

David Scott, gardener of Mrs. Holbrook of this City, exhibited also five superior seedling Petunias, one of which was of great size and beauty.

Some fine seedling fancy Geraniums were exhibited by Mr. John Suttle.

Mr. John W. Wood of Washington Hights, furnished a rare collection of Fuchsias, Geraniums, Pelargennums, and herbscious plants.

Nearly two tables were covered with roses, all of them choice varieties, and in some instances entirely new. The names of the exhibitors of the best varieties will be found in the list of awards.

A beautiful striped rose, furnished by Mr. D. Ball of this City, was very much admired.

A specimen of the Cissus discolar, a Brazillian plant but recently introduced, received its full share of admiration. It is a vine of great beauty and rapid growth. It was exhibited by Mr. Martin Callopy, gardener to J. H. Prentice, Brooklyn. There were also a beautiful specimen of the Lateritia Azalia in all bloom.

full bloom.

Among the fruits exhibited, Mr. Rappleyea's and Dr. Ward's contributions of Cherries and Strawberries were among the finest. The Strawberries were of the following varieties, some of which were fully four and a half inches in circumference: Hovey's seedling, Jennie's seedling, Joane, large early scarlet, Lurgunth's prolific, (called also Schneiker's pistolate.) Among the Cherries exhibited were a fine specimen of Cole's transparent and two seedling varieties, unnamed.

Among the Cherries exhibited were a fine specimen of Cole's transparent and two seeding varieties, unnamed.

Four very fine specimens of hot-house Grapes were exhibited by Mr. Wm. "harlton, gardener of Mr. J. C. Green, Staten Island. We have never seen larger clusters. They were of the following varieties: Two bunches black Hamburgs, two of Cannon Hall Muscat, and one of Muscat Alexandria.

Fine specimens of Gooseberries were exhibited by Mr. Decker, gardener of Mr. F. T. Jones of Staten Island, and Mr. Cairns of Newark.

At 9 o'clock in the evening Wilson G. Hust, Esq., the President of the New-York Horticultural Society, appeared on the rostrum and addressed the company. He returned thanks to the amateurs and the gardeners for their valuable contributions. He said that the objects of the Society were to familiarize the people with the science of Horticulture, to excite man to love that which is beautiful, and to caltivate a taste for this chaste and elevating occupation. He returned thanks to the Mercantile Library Association for the use of their Hall, which had been generously tendered to them. He said in conclusion that Mr. Br ant, who had been sunounced to deliver an address on the secasion, had been unable to be present. He stated that a communication from Mr. Bryant would be read by the Secretary.

Mr. Peter B. Mead then read the following:
